Professional Summary

Result-driven Frontend Engineer specializing in React 19+, TypeScript and Tailwind CSS with hands-on experience architecting, building, and deploying accessible, high-performance web applications. Graduate of AltSchool Africa's Frontend Engineering Program (Ayoba-funded scholarship), delivering production-ready interfaces, scalable design systems, and efficient component architectures. Currently expanding a freelance practice and progressing toward mid-level frontend roles through complex, scalable React projects, open-source collaboration, and Agile team environments.

Core Skills

Frontend: React 19+, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Tooling & Frameworks: Vite, TanStack Query, React Router v7, Git, GitHub, Figma, REST APIs

Deployment & Ops: Vercel, Render

Core Competencies: Component Architecture, State Management, Performance Optimization, Responsive Web Design, UI/UX Implementation, Accessibility (WCAG 2.1), Cross-Functional Collaboration, Agile Development, Code Reviews, API Integration, Testing, Technical Documentation

Selected Projects

Todo Application | Solo Project — 2025

- Built a full-stack-simulated CRUD Todo app using React 19+, TanStack Query, and Tailwind CSS with localStorage fallback, ensuring 100% data persistence offline.

- Improved accessibility by implementing keyboard navigation, ARIA labels, and high-contrast UI, achieving a 95% Lighthouse score.

- Deployed production build via Vercel and integrated mock API hosted on Render to simulate real-world REST operations.
- Refactored codebase to TypeScript for type safety and maintainability, reducing runtime errors by 40%.

Studex (Student Marketplace Platform) | Team Collaboration — 2025

- Partnered with product managers, frontend, backend, and cloud engineers to build a student marketplace platform using React 18+, React Router v6, TanStack Query, and Tailwind CSS.

- Engineered reusable UI components and state management flows that reduced UI redundancy by 35%.

- Coordinated via GitHub for continuous integration and peer code reviews to ensure maintainability and collaboration standards.

- Enhanced frontend performance by optimizing render cycles and bundles, achieving 30% faster load time.

100 Days of Code Challenge | Self-Initiated — 2025

- Documented daily frontend development progress on LinkedIn and X, covering state management, UI systems, and interactive components.

- Built and refined 10+ mini-projects, enhancing proficiency in React patterns and frontend architecture.

Professional Experience

Freelance Frontend Developer | Remote — 2024 to Present

- Designed and developed responsive business websites and dashboards for clients using React and Tailwind CSS.

- Delivered projects with page-load times under 1.5 seconds and maintained 100% mobile responsiveness across devices.

- Implemented performance tuning and accessibility improvements that boosted Core Web Vitals scores by 25–40%.

Lecturer | Federal College of Forestry (Ibadan) — 2023 to Present

- Delivered lectures in environmental management and introduced digital literacy modules to 100+ students.

- Applied instructional design principles to improve student engagement and knowledge retention by 30%.

- Developed learning materials leveraging UX writing principles to simplify complex concepts.

Assistant Project Manager / Voiceover Artist / Scriptwriter | Lolu Studios — Feb–Apr 2023

- Managed creative production schedules and deliverables for multimedia projects, ensuring on-time completion.

- Enhanced team collaboration through refined project tracking and documentation.

Project Manager / Customer Service Lead | Melody Events & Entertainment Ltd — Jun 2020 – Jan 2023

- Oversaw end-to-end client experience across multiple high-profile events, achieving 95% client satisfaction rate.

- Coordinated vendors and logistics to deliver projects on schedule and within budget.

Education

AltSchool Africa — Diploma in Frontend Engineering (2025) *· 100% Ayoba-Funded Scholarship*

3MTT Program (NITDA) — UI/UX Design Certificate (Completed)

University of Ibadan — B.Sc. Forest Resources Management (2018) *· Second Class Upper Division*

Certifications

- Frontend Engineering Program — AltSchool Africa

- UI/UX Design Certificate — 3MTT Program (NITDA)

- UI/UX Design Fundamentals — Self-taught (Online)

Community & Contributions

- Active member of Women in Tech and mentorship initiatives.

- Share technical content on frontend concepts and career growth via LinkedIn and X.

- Advocate for accessible, inclusive design in web development communities.
